[Crack Softspand Dico Pro Cracked](#)

The screenshot shows a chess software window titled "jose - Board". The main area displays a chessboard with pieces in their starting positions. To the right, a game log window shows the following text:

Lasker, Emmanuel-Capablanca, ...
Capablanca, José-Jackar, Emma
Capablanca, José-Vidmar, Milan

New York, 1927, New York, Round ?, 1927
Capablanca, José - Vidmar, Milan 1-0
C98 Spanish: Closed, Chigorin, 12...Nc6 13.d5 Nd8 14.a4

Annotator: Hartwig

1.e4 e5 2.♗f3 ♘c6 3.♗b5 a6 4.♗a4 ♗f6 5.O-O ♗e7
6.♞e1 b5 7.♗b3 d6 8.c3 ♗a5 9.♗c2 c5 10.d4 ♗c7
11.♗bd2 O-O 12.h3 ♗c6 13.d5 ♗d8 14.a4 b4
Weakening c4 and allowing the ensuing play.
14...Bb7 is also nice for white since the bishop has nothing to do there.
[14...♗b8 ± ♞]
15.♗c4 a5
[15...♗e8 16.a5 ±]
16.♗fxe5 !

This little combination opens up the center so white can exploit his positional advantages, particularly on the light squares. Otherwise black would be fine after 16...Ne8. 16...♗a6 !? 17.♗b3 dxe5 18.d6 ♗xd6 19.♗xd6 ♗xd6 20.♗xd6 ♗b7 21.♗xb7 ♗xb7 22.cxb4 cxb4 23.f3 Cementing white's advantage. Both of his minor pieces are better than their counterparts, and black's queenside pawns are also weak. 23...♞fd8 24.♗e3 h6 25.♞ed1 ♗c6 26.♞ac1 ♗e8 27.♞f2 ♞xd1 28.♞xd1 ♞c8 29.g4 With the idea 30.h4, 31.g5, 32.Rd5, etc.
[29.♗b6 ?! ♗d7 30.♗xa5 ♗c5 ±]
29...♗d7 ?! 30.♗b6 ♗e6 31.♗xe6 fxe6 32.♞d8+
Nice. White exchanges off rooks since otherwise black would develop counterplay with ...Rc8-c2 (that was black's idea behind exchanging bishops).

At the bottom, a table shows analysis data:

| Move | Depth | Time | Nodes | NPS |
|-------|-------|------|--------|-----|
| +0.80 | 14 | 1:33 | 38,8 M | |

Below the table are two circular gauges and a small text box: "Crafty 19.03 is analyzing".
